Supplementary Information

Table: Information about sample number, sampling date (…/…), optical density (OD) and quantity
of anti-SARS-CoV-2 antibodies in BAU (RSL); quantity of 99.9900 corresponds to > 680 BAU. **Chart:** STD – standards; SMP – samples. Samples positioned over the curve correspond to > 680 BAU, as this is the value of the highest standard provided by the manufacturer.

**Supplementary 2.** Results from the testing of seven samples from the first period (22, 40, 44 and 48) and the second period (103, 265 and 269) using a quick test for detection of IgM and IgG. Sample 269 is positive in both ELISA tests.
